

PRACTITIONER TRAINING

Roundtable Session 2:

Case Management

What value does case management provide a child in care?

Do most children's homes globally do case management?

Write examples of a child's "essential information".

How can case management lead to more safe placements?

How can a home eradicate risks for a child?

How can a home determine the best way to do case management?

How can living in a children's home lead to long-term problems for a child?
